

Sustainability REPORT

Seneca Group is committed to leadership in sustainable operations, helping to show that even smaller professional organizations can be a part of the solution to slowing climate change.

Additionally, as a specialty advisory and consulting firm, Seneca Group recognizes that the largest impact will be through its project work. We actively engage with clients, design partners, and construction teams to improve the sustainability of the built environment.

2022

HIGHLIGHTS

- Signed The Climate Pledge, committing to achieve net zero carbon by 2040
- Conducted first annual operational carbon emissions accounting study
- Offset annual carbon emissions through Forterra's Evergreen Carbon Capture program
- Joined coalition of Pacific Northwest AEC firms committed to carbon neutral operations
- Guided Amazon's Bellevue 600 tower to be certified Salmon-Safe for the conservation of urban habitat and water quality
